

## APPENDIX I: California Historical Resource Status Codes

The evaluation instructions and classification system proscribed by the State Office of Historic Preservation in its *Instructions for Recording Historical Resources* provide a three-digit evaluation code for use in classifying potential historic resources. The first digit indicates the general category of evaluation. The letter code indicates whether the resource is separately eligible (S), eligible as part of a district (D), or both (B). The third digit is a code that describes some of the circumstances or conditions of the evaluation. The following codes were used for properties in West Hollywood already evaluated and/or designated as well as for those properties identified and evaluated during the Commercial Historic Resources Survey.
